PROFESSIONAL SUMMARY

Results-driven **Senior Mobile Application Developer** with **5 years** of expertise in **Flutter, React Native, Android, and iOS** development. Proven track record of delivering **50+ enterprise-grade applications** with **200K+ combined users**. Specialized in **cross-platform development, performance optimization, CI/CD implementation, and agile project management**. Expert in **full software development lifecycle (SDLC)**, from requirements gathering to **App Store and Play Store deployment**. Strong background in **team leadership, code review, mentoring**, and building **scalable, high-performance mobile solutions**.

CORE COMPETENCIES & EXPERTISE

| | |
|-------------------------------|------------------------------|
| Mobile App Development | Payment Gateway Integration |
| Cross-Platform Development | Real-time Applications |
| Native Android & iOS | WebSocket & GraphQL |
| Flutter & React Native | Push Notifications |
| Software Architecture | State Management Solutions |
| Performance Optimization | Code Review & Refactoring |
| Test-Driven Development (TDD) | Agile/Scrum Methodology |
| Automated Testing & QA | Team Leadership & Mentoring |
| CI/CD Pipeline Management | Project Management |
| Version Control (Git) | Client Communication |
| RESTful API Integration | Problem Solving & Debugging |
| Firebase & Cloud Services | App Store Optimization (ASO) |

TECHNICAL SKILLS

Mobile Development: Flutter • React Native • Dart • JavaScript/TypeScript • Kotlin • Swift • Java • Android SDK • iOS SDK • Xcode • Android Studio

State Management: Provider • GetX • BLoC Pattern • Redux • MobX • Riverpod

Testing & Quality Assurance: Unit Testing • Widget Testing • Integration Testing • End-to-End Testing • Test-Driven Development (TDD) • Automated QA • Selenium • Appium

Backend & APIs: Firebase • REST APIs • GraphQL • WebSocket • Node.js • Cloud Functions • AWS • Real-time Database • Microservices

Payment & Authentication: Stripe Integration • PayPal • In-App Purchases • OAuth 2.0 • JWT • Social Authentication • Biometric Authentication

DevOps & Tools: Git • GitHub • GitLab • Bitbucket • CI/CD • Jenkins • Fastlane • Docker • Jira • Slack • Trello

Design & Methodology: Material Design • Human Interface Guidelines • Responsive Design • UI/UX Implementation • Agile • Scrum • Kanban • SOLID Principles

SOFT SKILLS & LEADERSHIP

Team Leadership • Technical Mentoring • Cross-functional Collaboration • Project Management • Stakeholder Management

Requirements Analysis • Strategic Planning • Code Review • Problem Solving • Debugging • Technical Documentation

Client Communication • Presentation Skills • Time Management • Adaptability • Critical Thinking • Self-Motivated

PROFESSIONAL EXPERIENCE

• Senior Flutter Developer

ZRR Tech

Jan 2025 - Present

Lahore, Punjab, Pakistan

- Lead **full-stack mobile development** of **3+ enterprise-grade applications** serving **50,000+ active users** with **real-time features**
- **Mentor and manage** team of **5 junior developers**, conduct **weekly code reviews** and implement **best practices**, improving **code quality** by **40%**
- Decreased app **crash rate** from **2.1% to 0.3%** through **comprehensive testing strategies**, **automated QA**, and **performance monitoring**
- Optimized **CI/CD pipeline** and **build automation**, lowering average **build time** by **35%** and improving **deployment efficiency**
- Implement **scalable architecture patterns**, **state management solutions**, and **RESTful API integrations** for enterprise clients

• Flutter Developer

VitalBlze Pvt Ltd

Jan 2024 - Dec 2024

Remote

- Deployed **4 production-ready scalable applications** with **99.9% uptime**, supporting **100K+ monthly active users** across **iOS and Android platforms**
- Enhanced **application performance** and reduced loading time by **45%** through **code optimization**, **lazy loading**, and **caching strategies**
- Authored **200+ code fixes**, **feature enhancements**, and **security patches**, reducing **production bugs** by **60%** and improving **app stability**
- Expanded **automated testing coverage** from **30% to 85%** using **unit tests**, **widget tests**, and **integration tests**, improving **release confidence**
- Integrated **third-party APIs**, **payment gateways**, **push notifications**, and **analytics tools** for enhanced functionality

• Flutter Developer

Blue World City

Jan 2024 - Dec 2024

Lahore, Punjab, Pakistan

- Supervised and coordinated team of 8 developers using Agile/Scrum methodology and delivered 5 mobile applications ahead of schedule
- Built high-traffic member portal app processing 10,000+ daily transactions with zero downtime, implementing secure payment processing
- Enhanced API response time by 50% through efficient data caching, database optimization, and backend integration improvements
- Increased user retention by 30% through improved UI/UX design, feature implementations, and user feedback integration
- Implemented Firebase services, cloud storage, authentication systems, and real-time database synchronization

• Android/Flutter Developer

Sep 2021 - Dec 2023

Vespert Tech

Gujranwala, Pakistan

- Successfully delivered 12+ client projects within tight deadlines with 95% client satisfaction rate and positive feedback
- Minimized application size by 40% through code optimization, asset compression, and ProGuard/R8 implementation
- Expanded app performance by 55% through memory leak fixes, UI optimization, and background process management
- Delivered 20+ feature updates monthly with 98% success rate in production using agile sprints and continuous deployment
- Collaborated with designers, backend developers, and QA teams for seamless project delivery

• Android Developer

Jun 2021 - Aug 2023

Eagale Solutions

Gujranwala, Pakistan

- Engineered 8 custom native Android applications with average 4.5+ star rating on Google Play Store and 50K+ downloads
- Reduced application crashes by 60% (from 5% to 2%) through proactive analytics monitoring, crash reporting, and bug fixes
- Increased app download rate by 70% through performance improvements, user feedback implementation, and App Store Optimization (ASO)
- Established reusable component libraries and design systems, reducing development time by 25% and improving code maintainability
- Implemented Material Design guidelines, SQLite databases, local storage, and offline functionality

PUBLISHED APPLICATIONS

Featured Apps on Google Play Store & Apple App Store:

MyLink - Muslim Marriage App

Social networking app with real-time chat, user matching, and premium subscriptions

Play Store: <https://play.google.com/store/apps/details?id=com.my.link.app>

App Store: <https://apps.apple.com/us/app/mylink-muslim-marriage-app/id6742732774>

TradeMe.ae

E-commerce marketplace with payment gateway integration and multi-vendor support

Play Store: <https://play.google.com/store/apps/details?id=com.trademe.ae&hl=en>

Blue World City - Members Portal & Digital Wallet

Financial applications with secure transactions and payment processing

Members Portal: <https://play.google.com/store/apps/details?id=com.bwc.mobile.members>

Digital Wallet: <https://play.google.com/store/apps/details?id=com.wallet.bwc>

Forces School & College Management Systems

Educational management platforms with parent-teacher communication and academic tracking

School: <https://play.google.com/store/apps/details?id=com.forces.school>

College: <https://play.google.com/store/apps/details?id=com.forces.college>

Unwind by Umaans

Wellness and lifestyle application with booking features

Play Store: <https://play.google.com/store/apps/details?id=com.unwindby.umaans.unwind&hl=en>

Habit Tracker & Routine Planner

Productivity app with analytics and custom notifications

Play Store: <https://play.google.com/store/apps/details?id=com.hds.habittracker.routineplanner&hl=en>

Banyan Home

Real estate application with property listings and virtual tours

Play Store: <https://play.google.com/store/apps/details?id=com.banyanhome.app&hl=en>

App Store: <https://apps.apple.com/us/app/banyan-home/id6743860965>

EDUCATION

- **University of Sargodha**
Bachelor of Science in Software Engineering

Gujranwala, Pakistan
June 2021
